

AHMED PERVEZ KABIR

Full-Stack Web Developer

Email: ahmedpervezkabar@gmail.com | Phone: 01762435084

Location: Sirajganj, Bangladesh

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Self-taught Full-Stack Web Developer skilled in building responsive, production-ready applications with Next.js, Express.js, and MongoDB. Experienced in designing authentication systems, RESTful APIs, and role-based booking platforms, with a strong focus on deploying and maintaining real, working products rather than local prototypes. Comfortable owning a project end to end, from database schema to production deployment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Better Auth

Database: MongoDB

Tools & Platforms: Git, GitHub, Vercel

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

PROJECTS

TutorBooking | Full-Stack Tutor Booking Platform — Live | [GitHub](#)

Description: Built a full-stack platform where students search, filter, and book tutors by subject and availability, with a complete booking-management dashboard for tutors.

- Implemented JWT-based authentication with Better Auth and a proxy middleware pattern to separate frontend from auth internals.
- Designed status-based booking cancellation (instead of deletion) to preserve full booking history.
- Built backend-driven search, sorting, and date-range filtering for accurate results as data scales.

Tech Stack: Next.js, Tailwind CSS, HeroUI, Express.js, MongoDB, Better Auth

Mentora | Online Course Marketplace — Live | [GitHub](#)

Description: Built a two-sided course marketplace with separate instructor and student roles, course management, and enrollment.

- Enforced role-based access on both frontend and API layers.
- Restructured Express for serverless deployment on Vercel, fixing hardcoded URLs and environment-variable configuration.

Tech Stack: Next.js, Tailwind CSS, Express.js, MongoDB, Better Auth

Wanderlust | Travel & Destination Booking App — Live | [GitHub](#)

Description: Built a travel booking app for browsing destinations and reserving spots, applying the same booking-flow patterns used across other projects.

Tech Stack: Next.js, Tailwind CSS, Express.js, MongoDB

EDUCATION

Honours (B.A.)

Abdullah Al Mahmud Degree College

LANGUAGES

Bangla — Native | **English** — Conversational
